matic criticism of the old version, especially criticism-believing, valued and educational criticism.

The Islamic Heritage Record

Mahmoud Tayyar Maraġi

General and subject bibliography provision and other types of bibliography are at the time considered indispensable necessities and it is up to all the world nations as well as scientific assemblies to have their own cultural scientific productions cataloged in different ways. The Islamic disciplines among the original sciences in the world need to be cataloged of a modern comprehensive and entirely sweeping type scientifically, in the meantime, Persians should have the greatest share in this regard. The existing record demands nothing but to fill this scientific gap in Iran.

Library of Jahez

Abd-alsalam Harun

In this writing, we find a touch on “compilation in the age of Jahez”, “the devices of publication in this era”, “his mode of compiling and writing”, “prevalency of his books”, “the predecessors appreciating his writings” and, “the scores of his souvenir books.”

The Heritage Mirror Quarterly

First Year, Issue Nr. 2, Fall 1377 (1998)

Cultural Expansion and the Necessity of Proofreading the texts

The written heritage is the most marked indicator of the global nations and tribes evolution, of which book remains to be nuclear core. Transmission of early generation cultures to ensuing races has ever taken place by a lever so named, "book". The most direct and shortest way of this transmission is the sheer mode of "proofreading the texts" that is the most fundamental source of expansion and the developed nations hold out a top priority for producing books, vivifying the texts, with their literary technical, critical and researching correction in contents.

The Written Heritage Publication Office has come to life thanks to the vital need of this mission, hoping that it can take potent steps in perpetual cultural expansion. In addition to paying a great attention to proofreading and issuing the texts, the office releases the *Quarterly of Heritage Mirror* while demanding the honorable critics, noble bibliographer, dear proofreaders and all expert illustrious men in the field to dispose their ideas, thoughts, writings and articles for being reflected in the publication.

The Need for Resuscitating the Antique books

The late prof. Abbas Eqbal Aṣṭiyani

In this writing, the necessary link to historical and cultural background as well as the disadvantages of cutting off with the ancient Persian culture in the first place have been clarified, then after a confes-

sion made for the necessity and helpfulness of translating new scholars' works, it's been made clear that the resuscitation of our ancestral memorable manuscripts is extremely beneficial in the expansion of general knowledge as well as in the clarification of history, literature and the geography of Iran in addition to being an impediment for annihilation of most cultural gems and reserves, and the best people in charge of this great task are our fellow scholars rather than the Western Orientalists.

New Horizons in the History of Shiism

Rasul Ja'fariyān

In the introduction, the biographical sources all are classified in two groups, the most important of which have been verified in brief. within the text, by referring to the book, *Mo'jam A'lam al-Shiite*, an invaluable work of the late Abdula'ziz Tabātabāie, he has clarified in detail a few typical norms of proving personal Shiism.

An Inclusive Criticism of the Forefathers' Written Heritage

Juya Jahanbaxš

The ancient Persian writings remained from the early times are so multifarious and the most desirable that, if not all, most newcomers have become both charmed and beguiled by them. But it is impertinent of us to ignore the shortcomings visible in proofreading these texts. The criticism is generally overwhelming interpretation and among the ramifications what gains the most significance, and unfortunately is disregarded is an inclusive and the-
